

Derek Thurston

Sr. Solutions Architect, Red Hat

Derek Thurston is a Sr. Solutions Architect in the North American Public Sector, supporting U.S. Army clients. Prior to Red Hat, Derek was an Open Source software SME in the Strategic Innovation Group at Booz Allen Hamilton where he supported UNIX to Linux migrations, Red Hat Enterprise Virtualization, and CloudForms deployments. Derek got his start working with open source in 1997 with Red Hat Linux 4.x. He has worked on a wide variety of projects for both government and commercial businesses.
